MINERS OF FAIRMONT, W. VA., GET NEW SCALE OF WAGES.

Mother" Jones Stops in the City and Tells Her Experience in the Federal Court.

W. B. Wilson, secretary and treasurer of the United Mine Workers, whom Judge Keller, of the West Virginia Federal Court, has enjoined from holding conferences, within the jurisdiction of the court, with miners or their representatives, states emphatically that if his duties call him to West Virginia and he finds it necessary to confer with representatives of his organization he will disobey the injunction, even if he is arrested and put in jail.

"I shall certainly violate the injunction if my work takes me there," he said. "I don't think Judge Keller's order is just or fair. The injunction is a violation of our natural rights, and I will take the risk of jail if I have to. I have not been informed of the injunction, except through the newspapers. No papers have been served on me. If he has enjoined me from holding a private conference on business pertaining to our organization I shall not pay any attention to it."

Judge Keller, who isused the injunction, is judge of the Southern district of West Virginia, and the order will cover the mines in the New river field.

Secretary Wilson will meet President Mitchell, of the United Mine Workers, in Chicago to-morrow and the two officials will talk over the situation together. President Mitchell has notified the secretary that he will leave Wilkesbarre for Chicago to-day. Secretary Wilson goes to Cincinnati to-day and from there to Chicago. He
